Real Estate Video Tours

Benefits of using Real Estate Video Tours

Have you noticed the popularity of social media and video distribution sites such as YouTube, Facebook and Twitter? Over 90% of homebuyers begin their search on the internet. Not to mention the fact that most households include numerous computers, plus a growing percentage of SmartPhones - essentially a pocket computer with phone calling capabilities!

Video is more realistic, more appealing, and can evoke emotion - something still photos and text cannot do. Real estate video tours help save you time, save you money, sell more real estate. How your listing appears online means the difference between a buyer picking up the phone and scheduling an appointment or going to the next agent.

80% of homebuyers use the Internet and Video Tours as a resource when they are searching for a new home, and only 35% attend open houses? Once you've have a Video Tour, you have essentially created a round-the-clock online open house that buyers can conveniently experience from their home or office computer - 24/7.

While a real estate Video Tour will never be a substitute for a personal walkthrough, it is an essential first step for helping a buyer focus on the listings that fit their needs and taste. Our Video Tours enables out-of-town buyers to make qualified decisions efficiently and conveniently because now they now have the ability to visually walk through the property without hav-

REAL ESTATE VIDEO

Are you showing your properties online in the most compelling way possible?

According to the National Association of Realtors:

- More than 90% of home buyers use the Internet to research homes
- 1 in 4 buyers first saw the home they bought on the Internet
- 4 out of 5 Internet using home buyers close deals using real estate agents
- Nearly 3 out of 4 Realtors use the Internet to conduct their business and deliver premium services to clients.
- 70% of home sellers are more likely to list with an agent offering full-motion video home tours that will showcase their home... but less than 1% of U.S. agents in America provide this easy-to-offer service!

LEGAL VIDEO

When attempting to settle a case, it is imperative to produce a "Day-in-the-Life" video or a "Settlement Video" to convince the opposition that they cannot win the case in a court of law, thereby encouraging a settlement of the case.

LEGAL VIDEO SERVICES

DVI Legal Video is experienced in capturing and communicating depositions through the use of video, audio and graphic images. Today's courts are overwhelmed. So to expedite cases, depositions are now held in remote locations where the deponent, attorney, court reporter and legal videographer record the testimony by following the Federal Rule of Civil Procedure 30(b)(4) and the Federal Rules of Evidence so that the testimony can be entered into a court of law. If the case goes to court, the video can be played back in front of a judge and jury.

We offer all of the following video services:

Video Depositions * Settlement Documentaries * Video Wills

Proof of Damages * Pre-Construction Video surveys * Construction Draws

If you are interested in something you don't see, please send us an e-mail. We are always looking for more services to offer our clients.

These services may offer the following;

- State-of-the-Art Equipment
- Individual Microphones for all Speakers
- Double-recording of all Depositions
- Mpeg-1 and Mpeg-2 files on DVD
- Videotaped Depositions
- Pre-Trial Editing
- Courtroom Playback
- DVD Duplication
- Archiving of Deposition Master Videotapes
- Computer Graphics
- Documents Scanned and Transferred to Video
- Time and Date Generation

Pricing for Video Depositions: **\$95 hour** or **\$700** for 8 hour block. **\$100** an hour after 8 hours

Rates are adjusted for repeat contracts.

These are just typical categories practically requiring a video resume, the idea of a video also applies to many other professionals.

VIDEO RESUME SERVICES

Applying for jobs are changing rapidly as you read these words. According to computer Economics, more than 2 million standard resumes are posted on Monster.com and careerbuilding.com combined, and over 20 million total resumes are currently online-spread over more than 1200 employment site. How many do you think receives a response?

In this economy, video resumes are clearly the competitive new way for job seekers to gain an advantage in their search for employment. It is possible that in a few years, video resumes may be mandatory for submission when trying to get a job, especially if the job entails being in front of the public.

A job candidate who uses a video resume demonstrates that he or she is confident, ambitious, techno-savvy and computer literate...especially if he or she combines the video with a personal website.

We could do this for you:

Depending on the viewer's level of interest, we can organize these components together or separately:

A **30-second** trailer that briefly introduces the candidate that sets the tone for the video.

A **2-3 minute** presentation stating the applicant's job objectives, areas of expertise, special accomplishments, and special knowledge related to the position sought.

A **2 minute** presentation very specific to your job skills

A copy of the written resume and a transcript of 5 key questions mostly likely ask by the interviewer. Copies of any awards, achievements or other important documentation of past work.

FAMILY VIDEO BIOGRAPHIES

FAMILY VIDEO BIOGRAPHIES

Preserve your family member's life history on videotape or DVD. Life story videos are treasured family keepsakes and are great gifts for children and grandchildren. DVI will ask unique and insightful questions during the video interview that bring back the past as if it were yesterday.

We are very flexible and will work with you and your family to make the videotape and interview process as comfortable as possible. Generally, we film in our customer's own home in their favorite room or chair. Your answers to our interview questions are combined with photos, film or other images as appropriate and set to music from the corresponding time period to create a custom family video production. The resulting life autobiography will ensure that your descendants, generations from now, will know you through your own words in a way that photos and oral history could not.

DVI will travel to your location, bringing with us professional lighting, microphones, and video cameras to conduct the video interview. One video camera operator and one interviewer will be present the day of the interview. A one hour final video will take approximately three hours to videotape. A two hour final video product will take 4 - 6 hours. Generally, we allocate two days of shooting three hours each day for a two hour production.

Video Biography Packages (starting at \$800)

1-Hour Video Biography / One Pre-interview up to 2 hours

One 3-Hour Interview / 25 minutes of photos, slides, film or other images
